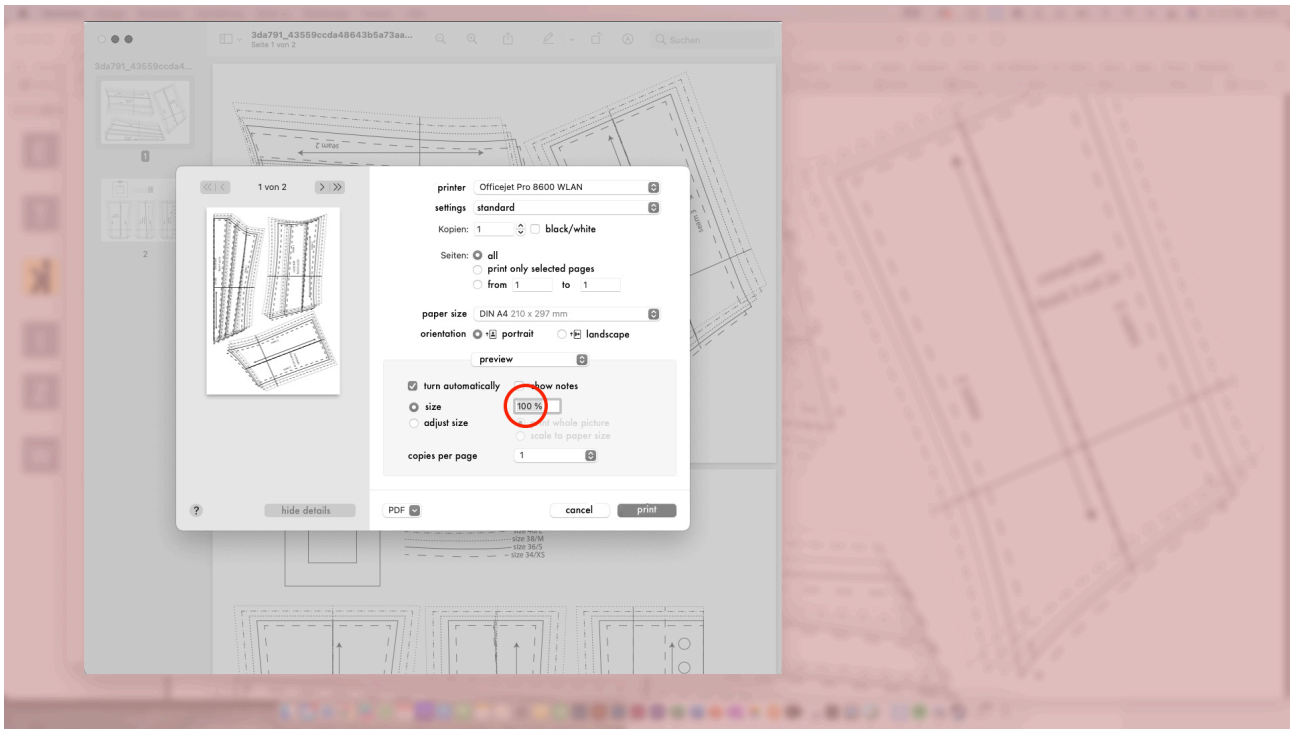
Set your image scaling to 100%. If you don't do this, your pattern won't be the correct size. There is a control included in the pattern that must measure 5cm and/or 1 inch. Please check before starting your project.



Tape your printed pattern together if needed and cut out your size.

I suggest to ALWAYS do a sample before starting with your selected fabric. Check if the garment fits or if you need to make any changes. Always measure distinct lines like waist, bust or hip and check with your measurements.
